Featured Spotlight—Alia Noetzel

The Bullying Research Network is pleased to introduce the new incoming coordinator, **Alia Noetzel!** The current BRNET coordinator, Ana Damme, will be going on her APA Pre-Doctoral Internship starting July 2nd and although we will miss her, we are excited to have Alia join the BRNET team.

Alia is a third-year doctoral student in the School Psychology Program at the University of Nebraska—Lincoln and is a trained Target Bullying Involvement Program (T-BIP) Specialist. She serves as a co-director for the T-BIP, where she helps school staff and families collaborate with interventionists to approach bullying behaviors with a problem-solving, assessment-driven approach. Her research interest include bullying intervention, mental health correlates, the unique role of bully-victims in the bullying dynamic, and outcomes related to bullying behaviors. When she is not studying for classes and doing research, you can find her playing tennis, running, and reading for fun.

Funding varies across countries and is not limited to federal grants.
